

## *Fast, Easy & Simple*

- Why not start or grow your business today?
  - If you're not in business already, take a look at the hundreds of business ideas we have included on this page! Maybe one of those businesses is the perfect one for you!
- We can lend you up to \$1,000 based on your personal or business income.
  - You can take as much time as you need to pay us back. All you have to do is pay a minimum monthly fee. We want you to have the opportunity to make your business a success!
- If you have a business license, we can get you the money you need for your business.
- It only takes 15 minutes to get your business license, and we can help you with that as well.
  - Just fill out the Master Business License Application form and you can file it electronically for \$15 or just send it in. Once you have the application completed, we can get to work on approving you for your Micro Business Loan!
- The fee is 17.5% per month for the money you have outstanding (\$17.50 per hundred dollars per month).
  - \$100 costs you \$17.50 per month, and you can repay your loan on a schedule that makes sense for you. Your loan is due in one month, but you have the option to extend the due date for another month by paying the monthly fee (and you may extend as many times as you'd like).
- Information regarding your business and your loan with us will remain confidential and private.
- Take a look at all the different business ideas below, and just imagine bringing more income to you and your family. The state of the economy has made it very important for many to find income sources other than traditional jobs. A small business is a great answer and we are here to help!
- If you're interested, please talk to one of our tellers.
